

Guidelines for soil

- ✘ Soil persistence models and EU registration (1997)
- ✘ Guidance Document on Persistence in Soil (2000)
- ✘ EFSA Guidance Document for evaluating laboratory and field dissipation studies to obtain DegT50 values of active substances of plant protection products and transformation products of these active substances in soil (2014)
- ✘ EFSA Guidance Document for predicting environmental concentrations of active substances of plant protection products and transformation products of these active substances in soil (2015)

Guidelines for groundwater

- ✘ **Assessing Potential for Movement of Active Substances and their Metabolites to Ground Water in the EU (2014)**
- ✘ **GUIDANCE DOCUMENT ON THE ASSESSMENT OF THE RELEVANCE OF METABOLITES IN GROUNDWATER**

Guidelines for surface water

- ✘ Generic guidance for FOCUS surface water scenarios (2015)
- ✘ Landscape and Mitigation Vol 1 (2007)
- ✘ Landscape and Mitigation Vol 2 (2007)

- ✘ **Generic guidance for Estimating Persistence and Degradation Kinetics from Environmental Fate Studies on Pesticides in EU Registration (2014)**
- ✘ **EFSA Guidance Document on clustering and ranking of emissions of active substances of plant protection products and transformation products of these active substances from protected crops (greenhouses and crops grown under cover) to relevant environmental compartments (2014)**

FOCUS DG SANTE

Welcome to the home page of FOCUS DG SANTE, i.e. the FORum for Co-ordination of pesticide fate models and their USE. From this site you can currently approved versions of FOCUS simulation models and FOCUS scenarios, that are used to calculate the concentrations of plant protection groundwater and surface water in the EU review process according to [Regulation \(EC\) No 1107/2009](#). Furthermore this site contains links to the FOCUS workgroups.

This website is referred to by the EC website on Food Safety under "[Guidelines on Active Substances and Plant Protection Products](#)" - Fate and Bel
